## An Old Treasure Unearthed

To have abandoned hope of ever get-  
ting money collected on a mortgage, and  
then to receive the intelligence after  
more than twenty years that the sum of  
\$1000 had been repaid in the bank all  
these seasons waiting for the lawful  
claimant and with accumulated interest  
sufficient to bring the sum up to \$3400 is  
like getting money from heaven, and this  
is the experience which Mr. Frank Mar-  
riage has recently enjoyed.

Property in Calgary was mortgaged by  
the late John Scott, formerly of Calgary,  
and made out in Mr. Marriage's favor.  
Marriage left Calgary in 1880, leaving the  
matter to the hands of Solicitor T. E. Ede,  
then of Calgary, who was to make an  
effort to collect the amount. Because Mr.  
Ede had expressed a grave doubt as to  
being able to collect, and because the  
communication which Mr. Ede sent to Mr.  
Marriage when the collection was  
finally made went wrong, the latter con-  
cluded that the mortgage was valueless  
and could only be placed among his dead  
weight.

After years of unsuccessful advertising,  
and being unable to locate the man Mar-  
riage, Mr. Ede obtained the services of a  
young solicitor of Blainmore, Mr. L. H.  
Putnam, to more vigorously assist him  
in connection with the matter. After  
three years of work, an application was  
made in November last to have Mr.  
Ede's old client, Marriage declared dead  
by order of court and his estate adminis-  
tered and the money paid out. After  
some delay, between the time of the applica-  
tion and the taking out of the order,  
however, Mr. Ede received a communication  
from James Anderson, of Banbury

Lake, B.C., a client of Mr. Ede's in the  
year 1880, at which time the latter had  
an extensive and remunerative practice  
in Calgary together with the police magis-  
trate, and being the sole of the jurisdiction  
of the Northwest Territories, Judge Kells  
and himself being the only jurists in the  
territories at that time. Mr. Anderson,  
while going through a bunch of old  
papers contained in a trunk, came across a  
letter which he had received from Mar-  
riage about sixteen years previously,  
in which was an address in London,  
England. With this clue, communication  
was taken up with Scotland Yard,  
resulting in the location of a sister of  
Mr. Ede's client, which ultimately re-  
sulted in locating his prodigal client in a  
remote farming community on the Pacific  
coast and having him come to Blainmore  
so that necessary identity could be  
proven and an application made to the  
court to have the money paid out. After  
reuniting in Blainmore several days,  
Mr. Marriage, in company with solicitors  
John Putnam, sent to Calgary, where  
an application was made by Mr. Put-  
nam, acting on their behalf, before Mr.  
Justice Stewart, who on Monday after-  
noon issued an order that the money be  
paid from the Bank of Montreal to the  
order of Frank Marriage and his duly  
authorized attorney, and after payment of  
the addition's charges, the balance be  
given to the rightful owner.

On Wednesday morning, after consid-  
erable delay, the Bank of Montreal dis-  
tributed the money in accordance with  
Mr. Justice Stewart's order.  
Mr. Marriage left for the coast on Wed-  
nesday evening, while Messrs. Ede and  
Putnam returned home to Blainmore.

## Cowley Happenings

(Received too late for last issue.)  
Cowley, March 27th, 1916.—We  
are glad to report that Mrs. Joe  
Morgan, who has been ill for some  
time, is so much improved that she  
is expected home shortly.

R. Swift is busy these days land-  
ing recruits for the 102nd.

A number of members of the  
Home Guards have arrived home  
for a month's change.

The farmers are taking over the  
business of Mr. Howie. Mr. Howie  
will still be retained as manager.  
A nice snow storm once in a  
while is keeping the ground moist  
for the seed that is already being  
sown.

The River baseball fans held a  
very successful dance on Friday  
night, which netted somewhere  
around \$38.00.

Several Cowleyites, who have  
been spending the winter in the  
States, have returned to home and work  
again, looking and feeling fine.

On Saturday, April 8th, a dona-  
tion of supplies for the Ogden  
convalescent home for returned sol-  
diers will be gathered up by the  
Women's Institute committee.

J. Connors, of the North Fork,  
had a big runaway recently. His  
four-horse team got loose, breaking  
the tongue and several other parts  
of the wagon. Fortunately no one  
was hurt.

Miss Nellie McWilliams has  
taken a turn for the better, after a  
long siege of typhoid fever. Though  
still unconscious at the beginning  
of the week, she was pronounced  
out of danger.

Mrs. W. T. Eddy and daughters  
leave for Calgary on Thursday  
night, where they will take up their  
abode for the present. Their ranch  
has been taken over by the Bank-  
ers, who intend putting on  
engines and breaking up the land  
that has so long grown hay and  
feeding it to wheat. We wish Mrs.  
Eddy and daughters good speed,  
and may they make many friends  
in their new home.

The Cowley Women's Institute  
met in the Masonic hall on Sat-  
urday, March 25th, to dispose of  
their monthly work. A large num-  
ber of ladies were present, as  
well as a number of children,  
making the meeting a most enjoy-  
able one and they are to be re-  
membered in the line of the Red  
Cross work. Over \$125 was taken  
in, beside several pairs of socks.  
The drawing for the cushion given  
by a member was done by Little  
May Robinson, and Mrs. Milton

I have had over twenty years' expe-

Bellevue, Alta., Fri., April 7, 1916

Detail of Proposed  
Colonies For SoldiersCalgary, April 6.—Mr. J. S. Dennis,  
assistant to the president, C.P.R., on his  
return from a month's trip to Montreal  
and New York, when asked regarding  
the scheme announced by Lord Shingh-  
nessy of returned veterans' colonies, said:"The decision of Lord Shinghnessy to  
provide through the Department of Nat-  
ural Resources of the Canadian Pacific  
railway farm homes for our returned  
soldiers is a further proof, if any were  
needed, of his willingness at all times to  
devote his great energy and ability, and  
the resources of the company, to the so-  
lution of the problems facing Canada  
and that of the Empire.""Without doubt, one of the most  
serious matters we now have to deal with  
is the question of taking care of the men  
who have fought the battles of the im-  
pire when the war is over. Their mili-  
tary experience will have been unutilized  
and a great many of them for a return to  
ordinary clerical and sedentary life, and  
something further will have to be done  
to enable them to obtain employment."  
The problem is further com-  
plicated by the fact that, without doubt,  
very large number of men, who will be  
returned not only from the British Empire  
but to emigrate to the overseas Dominions  
and provision must be made to  
properly take care of them, and enable  
them to obtain employment."The extent and magnitude of the  
work of preparing one thousand farms  
will be realized when it is noted that to  
be built, 1000 houses, building  
1000 barns, constructing 1200 miles of  
fence, digging 100 wells, breaking and  
cultivating 20,000 acres, the building  
will require about twenty million feet of  
lumber to erect. The preparation of  
these farms will entail an expenditure of  
about three and a half million dollars.""One thousand farms will, of course  
provide for an extremely small proportion  
of returned soldiers who will want to  
obtain farm homes. However the  
Canadian Pacific railways has laid the way  
in trying to solve the pressing and  
timeless question and no doubt be-  
fore long the Dominion government will  
announce its general scheme.""The enlistment of the 200,000 ad-  
ditional men called for by the government  
will, of course, double the number to be  
taken care of after the war is over, and  
also causes a serious problem. The west-  
ern provinces have responded nobly to  
the call of the Empire in sending men  
to fight our battles, and already there is  
a serious shortage of labor of all kinds,  
due to this enlistment. In the effort  
to meet this shortage the Dominion govern-  
ment is now advertising in some 4,000  
papers in the United States for 20,000  
laborers to come west and help put in  
the crops this spring. They find that  
there is no chance of getting this number  
of men and have announced that from  
three to five thousand is the greatest  
number that can be obtained.""The recognition of this shortage of  
labor by the Department of the Interior  
and the efforts they are making to meet  
the situation by bringing men from the  
United States is a contradiction of the  
statement made at a meeting in Montreal  
a short time ago by General Sir  
Hughes, minister of militia, that the en-  
listment of men in the west was causing  
any shortage of labor, and is proof,  
if any were needed, of the soundness of  
the policy of recruiting advertised by  
Lord Shinghnessy at the same meeting.  
Every true Canadian realizes that Cana-  
da must ultimately send her last man  
and spend her last dollar to enable the  
Empire and her allies to bring the war to  
a victorious termination, but why  
enlist men before they can be used.""It is now recognized that under the  
most favorable circumstances it will be  
the end of the year before all the men  
possibly, who are a large, harrow find, then  
cultivate, seed, and harrow again. In  
Saskatchewan now 1 1/2 bush. per acre; in  
Western Saskatchewan 1 1/2 bush. On light soils and dry  
lands now 1/2 bush. less."Many of the battalions now authorized  
are very much below their full quota of  
men. Why then go on authorizing ad-  
ditional battalions and removing men  
from the local employment? It is to  
fill the empire or supply it with mili-  
taries until they can be utilized in the  
fighting line."Of the men already enlisted, western  
Canada has provided much more than  
its share on the basis of population. As  
western Canada is an arid region of that  
fact, but why drive a willing horse off its  
feet to utilize in the meantime to subgra-  
de in other ways, and it can be  
kept in good condition for the time when  
its full strength can be properly applied  
in the supreme crisis."By Special Arrangements with W. A. Brady, of New York, W. B. Sherman

## Barbour-Beck Nuptials

Announcements have been re-  
ceived of the marriage of Miss Lulu  
Beck and Mr. Alf. Barbour on  
March 25th. The following ac-  
count of the wedding is from a  
Montreal paper, dated March 31st:  
It became known here today that  
one of the players on the Rosebuds,  
the Portland club, of the Pacific  
Coast Hockey league, became a  
bridegroom while here with his club  
for the Stanley cup series.The marriage was quietly cele-  
brated on Saturday last, March  
25, at the residence of the bride's  
sister, Mrs. S. Lamert, of Lulu  
Blanche, daughter of Mr. and Mrs.  
Alexander Beck, of Coleman, Alta.,  
to James Alfred Barbour, Ph.B.,  
son of Mrs. M. E. Barbour of Win-  
nipeg, and member of the Portland  
Rosebuds. Mr. and Mrs. Barbour  
will visit New York, Chicago and  
other American cities on their way  
to their future home in Portland,  
Ore.The Duke of Connaught at Xmas  
gave 100 presents to the Cana-  
dian Red Cross hospitals in Eng-  
land and France.The Kaiser's  
Raw RecruitsMr. Frederick Schwed, an American  
who has just returned from the capitals  
of the warring nations to New York,  
makes some astonishing disclosures about  
the new German recruits in a long article  
which he has specially written for the  
World.The raw men that England know-  
ing into the locker (says Mr. Schwed)  
are as sturdy, vigorous, and fine speci-  
mens as for first volunteers, and perhaps  
more numerous.But in Berlin I cannot exaggerate the  
depression among the people when the  
raw drafts of today march (although this  
flatters their progress) through the streets.  
Germany is at the bottom of her glass  
for men. These are the drags of a people.  
The thrice rejected, the unfit, weaklings,  
the sweepings of a race walk pitifully  
past to be made into soldiers.  
I have always had an abiding respect  
for the German "regular" and was very  
wont into their ranks, and that it was  
no terror in a dark alley. When I say  
that the village idiot would have fared  
well into their ranks, and that it was  
doubtful whether the entire detachment  
ever reached the barracks without some-  
thing else, you can gather something of  
the impression that the Kaiser's new  
fighters make.

## Biggest Check On Record

New York, April 6.—A check for  
slightly more than \$70,700,000, said to  
be the largest ever drawn, passed through  
New York clearing house today. It was  
made by J. P. Morgan & Co. on a  
local bank to the order of the Canadian  
government in payment of \$75,000,000,  
per value, five per cent bonds recently  
purchased by a syndicate of bankers.These bonds, which mature in three  
equal parts at the expiration of ten, ten  
and fifteen years, were recently sold by  
the banking syndicate at public offerings  
at prices slightly under par. The pass-  
ing of this check through the clearing  
house will involve an unusual shifting of  
loans, which will be reflected in next  
Saturday's bank statement.

## The Kaiser on The Job

Wherever there is a big drive on,  
likely to cost thousands of lives,  
there is the Kaiser skulking and  
flapping about safely behind the  
lines, like an obscene culture  
creeping over the coming slaughter.  
What a dull place is Poles-  
land, when there is a show on such  
as that at Verdun! When the  
Kaiser alights behind a German  
line, the men may prepare to make  
their will, and say good-bye. The  
Housers culture is an omen  
of change.—London Advertiser.

## Production and Thrift

GROWING CROPS  
ON STUBBLE LAND IN 1916The Empire's Demands for food are greater this year than last.  
Less summer-fallow and less fall ploughing than usual in 1915 make  
it necessary that the farmers of the Prairie provinces in 1916  
shall sow extensively on stubble landMR. J. H. GRISDALE, Director, and the Superintendents of the Dominion  
Experimental Farms, urge the following upon the Farmers:

## STUBBLE LAND OF FIRST CROP AFTER FALLOW

Burn stubble thoroughly as soon as surface is dry. Fire about noon time when steady wind is blowing.  
Cultivate at once about two inches deep, then sow the wheat and harrow immediately afterwards. If  
possible, where area is large, harrow first, then cultivate, seed, and harrow again. In Eastern  
Saskatchewan sow 1 1/2 bush. per acre; in Western Saskatchewan 1 1/2 bush. On light soils and dry  
lands now 1/2 bush. less.

## STUBBLE LAND OF SECOND CROP AFTER FALLOW

Usually this land should be summer-fallowed, but in this year much of it must be in crop. Burn stubble if  
possible. This may be helped by scattering straw freely over the field. Wrap old soaking about the end  
of a 4-foot stick. Dip in gasoline. Set on fire and shake on straw and stubble. Cultivate in rows  
if possible. If stubble is too tight to burn then cultivate, harrow and seed a little lighter than above. Oats and  
barley will do better than wheat. If else drills are used plough instead of cultivating. Plough,  
crops and land should be summer-fallowed every year.

## STUBBLE LAND OF THIRD CROP AFTER FALLOW

Do not sow to grain, but summer-fallow. Better sow your spring labour on other stubble land and thus  
make sure of crops in 1916 and 1917. Put your labour on land that is likely to give best return.

## SEED

Sow only clean, pure seed of tested variety. Use the farming mill thoroughly and treat seed for smut.  
Have hoes, harrows and machines in good shape before starting work.THE GOVERNMENT OF CANADA

Capt. Alfred Thomas though very second son of Lord Slough Pacific, has been killed in action somewhere in France. Capt. Slough was born in Montreal in 1887, and was educated at Abington and Bishop's college schools and McGill University. He joined the Victoria rifle at Montreal in 1910 and was ordered for active service with the 60th battalion Canadian overseas, in June, 1915. His brother Capt. Desmond is also connected with the 60th as second in command of Company "A". Another brother, Captain the Hon. William J. Slough, was in command of the Irish regiment, the 190th battalion. The dead captain was a great favorite with all who knew him.

It is quite true that some of the methods employed by spotters of the liquor license department to obtain convictions under the act are somewhat shady, and the experience of the detective at Blairmore will be a lesson. Why a man should make himself a criminal to catch a criminal is beyond comprehension, especially when the crime is no worse than those which come under the ken of the liquor department.—Lethbridge Herald.

A guy came into our editorial office the other day and passed this one on as when we weren't looking: "I hear that you can't run Ford cars in Seattle over four miles an hour."

"Why?" said we, falling for the home-trap.

"They'll get pinched for running the car if they do," said the guy. Then he beat it.
